

PART I-Form A

Form A -No risk of significant effect

**DECLARATION BY THE AUTHORITY RESPONSIBLE FOR MONITORING
SITES OF NATURE CONSERVATION IMPORTANCE¹**

Responsible Authority **State Nature Conservancy of Slovak Republic, Lazovna
10, 974 01 Banska Bystrica, Slovakia**

Having examined the project application **D1 Dubná skala - Turany highway**
which is to be located at cadaster **Vrútky, Lipovec, Turčianske Kľačany, Martin-
Priekopa, Sučany, Podhradie, Turčianska Štiavnička, Turany, Nolčovo**

we declare that (tick the appropriate box):

The project is not likely to have significant effects on a site of nature conservation importance on the following grounds:

The Project is aimed to continue building the D1 highway in next section. This section is connected to the planned D1 Višňové - Dubná skala highway and proceeds to the next planned section of the D1 Turany – Hubová highway. The route is mainly led through the open spaces, it is close to residential areas in Turčianske kľačany, Martin – priechod and in Turany. In Sučany it is led between the River of Váh and the rail. Planned section of the highway is not situated inside the Natura 2000 sites (SCI – sites of community importance and SPA – special protected areas). Nearest SCI is the SKUEV0252 Malá Fatra (approximately 0.23 – 1.4 km away from planned highway) and SKUEV0238 Veľká Fatra (approximately 2.6 km away from planned highway). Distance from the closest SPA SKCHVU013 Malá Fatra is app. 0.23 - 2.5 km and from the SKCHVU033 Veľká Fatra app. 2 km. Detailed localization and situation is specified on enclosed map.

All project activities have been approved according to the national legislation (territorial planning or building permit procedure) and to all of them the official opinion from the involved nature and landscape protection Authority was needed.

Therefore an appropriate assessment required by Article 6 (3) of Directive 92/43/EEC was not deemed necessary.

~~Following an appropriate assessment, according to Art. 6(3) of Directive 92/43/EEC, the project will not have significant negative effects on a site of nature conservation importance~~

A map at scale of 1: 50.000 (or the nearest possible scale) is attached, indicating the location of the project as well as the site of nature conservation importance concerned if any.

Signed: **Ing. Andrej Vidra** *n.2. Thm* Date : **22/08/2008**
(Authority responsible for monitoring sites of nature conservation importance)
