

CEN Construction Snapshot

**Current situation for candidate harmonized standards
under the Construction Products Directive**

February 2011

1. Introduction

The objective of the CEN Construction Sector Snapshot is to provide standardizers and users of the standards with an overview of:

- the draft standards developed by CEN and ECISS Technical Committees, which will be cited in the Official Journal and provide presumption of conformity to the Construction Products Directive (CPD – 89/106/EEC);
- the amendments and revisions of harmonized product standards (hEN) already cited in the OJEU.

Priority is given to the 'market' vision of the Standard. Therefore, corrigenda, amendments or revisions are not totalized separately but in a group, which progress is measured according to the global progress for the purpose.

The labels used in the different sections of the snapshot can be understood as follows:

- **Standard:** generic part without date or function (for more details see the 'linked work item' description)
- **Linked Work Item:** gives the unique CEN Work Item identification and, if existing, the full Standard reference.
- **Last realized:** gives the last registered (date of the Snapshot) evolution in major steps (description and internal milestone numbering) from each Work Item.
- **OJEU:** gives references and dates from the registered history in the Official Journal from the European Commission.
- **DOW:** Date of withdrawal registered in CEN's database. There may be a difference with the dates cited in the OJEU (last minute change or registration time discrepancies).
- **Mandate:** Gives a list of all mandates linked to the concerned Work Item (also mandates which are not specifically linked to the CPD)

Moreover, several acronyms, referring to the different steps of the approval process of a standard, are used to describe the last registered evolution (more information on each step can be found on the CEN BOSS <http://www.cen.eu/boss>) and mean the following:

- **ENQ:** Enquiry
- **FV:** Formal Vote
- **UAP:** Unique Acceptance Procedure
- **DOR:** Date of Ratification
- **DAV:** Date of Availability

2. Summary

Concerned standards

478

<u>Approved ENs</u>	
Approved Standards cited in the Official Journal	402
Approved Standards not yet cited in the Official Journal	14
Approved Standards not yet available	0
Total approved Standards	416
<u>Drafts which have completed FV or UAP</u>	
Approved Drafts not yet ratified	0
Failed Formal Vote or Unique Acceptance Procedure Drafts	6
<u>Drafts which are under FV or UAP</u>	
Drafts undergoing Formal Vote or Unique Acceptance Procedure	4
Drafts received in CEN Management Center for Formal Vote preparation	4
Drafts received in CEN Management Center for UAP preparation	4
<u>Drafts before FV or UAP</u>	
Drafts passed CEN Enquiry	25
Drafts undergoing CEN Enquiry	2
Drafts received in CEN Management Center for Enquiry preparation	4
Drafts not yet received in CEN Management Center for Enquiry preparation	13
Drafts in development deleted from the CEN database as the 3-years timeframe was exceeded by the CEN/TCs in charge	23

Note: The total number of harmonized product standards is expected to reach a total of 600. In addition to the 475 standards currently in development or already published, about 20 standards have already been registered as preliminary Work Items and 23 standards have been deleted from the CEN database since the CEN/TCs in charge exceeded the three-years timeframe period to develop the harmonized standards (which will be reactivated by the relevant CEN/TCs at a later stage). Moreover, new mandates (ETICS, anchors, accessibility, etc.) and revised CEN/TC work programmes covering new work items, specially those linked to mandate M/136, covering products in contact with water for human consumption, should continue to increase the total number of harmonized product standards to reach the expected total number.

3. Approved standards

a. Approved Standards cited in the Official Journal
